- 1. CALL TO ORDER**
- 2. DISCUSSION**
 - a. Review of Gross Alpha Mitigation Options
- 3. ADJOURNMENT**

City Council Special Meeting: August 18, 2026

AGENDA ITEM: Review of Gross Alpha Mitigation Options	AGENDA SECTION: DISCUSSION
PREPARED BY: Nick Egger, Public Works Director	AGENDA NO. 2.a.
ATTACHMENTS:	APPROVED BY: LJM
RECOMMENDED ACTION: None, receive informational presentation	

BACKGROUND

The City continues to investigate water treatment options within the City's distribution system. Staff and the City's consultant have developed treatment options for the Utility Commission and City Council to review at this joint meeting. The financial and operational impacts of the various solution options are a critical component to consider, and that will be discussed during the joint session.

No action is requested of the two bodies at this meeting. This discussion will help inform the City Council's final direction to staff, which will be requested this fall as a part of a subsequent presentation and action item.

RECOMMENDATION

Staff recommends the City Council and Utility Commission receive the informational update and provide feedback.
